Aquabridge Law is a multi-discipline law firm with offices in Essex and Suffolk servicing both business and private clients. We have a culture that challenges the conventional law firm approach and focuses our energy on getting great results for our clients, while attracting and developing brilliant people.

It's a sad fact that even after years and years of study, too many lawyers are more interested in the law than in their clients or their clients' businesses.

Not here.

While we respect in-depth knowledge and accuracy, what we really admire is the ability to use that knowledge to the benefit of clients. Help them solve problems they don't understand, or don't wish to. Find ways to resolve issues when they can't see a way forward. Support them with advice and guidance when they need it most.

That's the job. Interested?

We have a fantastic opportunity for a qualified solicitor to join the busy and growing corporate and commercial team doing top quality corporate and commercial work. You'll be working alongside highly rated solicitors and partners and ongoing support and training will be provided together with the ability to work flexibly.

You'll be part of a team that will be thinking on their feet and adapting smartly to changes and new opportunities whilst working on top quality legal work. See the corporate work highlights from last year below for more information on the type of work we do.

We are keen to speak to energetic individuals looking to make a difference. Any successful candidate will have, as a minimum, excellent academics, attention to detail with strong organisational skills.
